

Money vs. God's Honor

1 Corinthians 6:1-11

What verses describe the practice Paul is speaking against? What does the Apostle say?

What are the reasons that Paul gives to support what he is forbidding.

What statements answer the question: Which is a higher priority, money or god's honor?

What other life issues and choices for Christians involve the same two options?

Do you have any practices in your life which give money (or the attention of men or pleasure) a place above the Lord in your heart? If so, commit your way to turn from these ways.

What new habits will you begin, to replace the old practices from which you've now turned?

Are you committed to not bringing any financial disputes to the world's system instead of to the church?

Would this be true of other disputes as well?
