Hebrews 5:11-14

How are people who are immature described?

How are people who are mature described? How are they different from the immature?

From Hebrews 6, what topics do the immature need to be taught about again? Do you understand them?

What occurs if we fail to apply what we learn, according to Hebrews 5:14? What does this result look like?

By this time should you be a teacher? What is hindering you?

Since every believer should pass on what he has learned to others (ex. Matthew 28:19-20, Colossians 1:28, 2 Timothy 3:16-17), how does this occur in your life? How could God use you more in communicating His Word?
