

Money

1 Timothy 6:6-10

What does doctrine (6:3) have to do with money? What is the connection here?

On which do you expend more time, thought, energy and emotion: Godliness or finances? What time, thought, energy and emotion have you spent on each in the past week?

Are you content with food and covering? Are you living like 6:7 is true? Which and actions (priorities, schedules, spending, saving, giving, time-management decisions) say yes, which say no?

What friends, family or acquaintances have you known who have plunged into ruin and because of desires for riches? What happened in their lives?

What friends, family or acquaintances have you known who have wandered from the faith due to riches? What happened?

Are money and contentment related?

Come to a conclusion about the place money should have in your mind, your heart, your schedule, your life. Write it here. Also, write your prayer of commitment to honor God in the area of finances.
