

**Valley Bible Church**  
**Sermon Notes for March 24, 1985**

**Building On What Foundation?**  
**Matthew 7:24-27**  
**Dale Whitehead**

1. Choice:

We are each one building our lives upon a foundation of either rock or sand. Jesus is the rock with heaven at the end. Sand is any thing else with hell at its end; sand is trusting in self, our own good works. The deception of the world, flesh and Satan is to base life on self.

2. Confidence:

How can we tell on what foundation we are building? Look at the building. Everything in the building (life) should reflect the foundation, the trusting in Jesus as Savior and Lord.

“The race” **1 Corinthians 9:24, 2 Timothy 4:5-8** Paul is assured of salvation not because of the past but because of the way he lived his life. He fought the good fight.

3. Consequence:

The consequence of building on rock is that we would stand. **Matthew 7:24-25**

The consequence of building on sand is when the rain and wind come the house falls.
