

Valley Bible Church - Sermon Study Questions

Study Aid for the Sermon from April 12, 2009 “Why Should We Believe That The Apostles Saw The Resurrected Christ?”

Observing the text

Carefully read all the accounts of Christ post resurrection appearances in John 20-21.

How close of a relationship did Christ have with those to whom He appeared in those accounts?

How many different people did Christ appear to in those accounts?

Who were those to whom Christ appeared more than once in those accounts?

Were those who saw Christ in a position to see Him clearly?

Applying the sermon

Do you believe the testimony of the apostles that they saw Christ after He was reported to have been resurrected? How compelling do you consider that evidence?

If you consider the testimony of the apostles to be compelling evidence, how has this impacted your life?

What do you think about people who say that they believe in the resurrection of Christ when it is having no impact on their lives?

Take a moment to reflect on the significance of Christ's resurrection for your life.
