

Valley Bible Church - Sermon Study Questions

Study Aid for the Sermon from April 8, 2012 Why Should We Believe the Resurrection Testimony of the Disciples?

Observing the text

According to Mark 9:30-32, what did the disciples believe concerning the resurrection of Christ?

From Mark 16:9-11 and John 20:19-21, 26-28, what persuaded the disciples that Christ was resurrected from the dead?

What circumstances did Christ use to prove His resurrection to the disciples in Acts 1:1-3?

Using the Gospels, reference a few examples of how Christ sought to persuade His disciples.

How do we know that the disciples did not lie about what they were reporting?

Applying the sermon

What evidence shows that the disciples of Christ were credible witnesses of the resurrection?

How does this evidence lead to the conclusion that the resurrection of Christ is a historical fact?

How has the truth of the resurrection led you to believe that Christ is the Son of God, and that through faith in Him that you can be born again to a living hope?

If you have not as yet accepted the resurrection as a historical fact nor exercised faith in Christ, would you be willing to do that now? If you are not yet ready but would like further help, would you be willing to call the church office?
