

Valley Bible Church - Sermon Study Questions

**Study Aid for the Sermon from April 20, 2014
“The Significance of the Resurrection of Christ”**

Observing the text

Based on Roman 4:24-25, what was verified when Christ was raised?

Based on Ephesians 1:18-20, what was demonstrated when Christ was raised?

Based on 1 Peter 1:3, what was provided when Christ was raised?

Based on Romans 14:9, what was demanded when Christ was raised?

Applying the sermon

How does the resurrection confirm that Christ was the Son of God?

How does the resurrection confirm your justification before God?

How does the resurrection confirm that your hope in Christ is a living hope rather than a dead hope?

If you believe that the resurrection has confirmed all these things to be true, then how should you presently be living your life in light of these things?

If you are not presently living your life in a way that is consistent with what you profess to believe about the resurrection of Christ and what the resurrections of Christ confirms, what should you do?
